

## TSA02NC-230V

### Thermal actuator AFRISO-230V/2W, normally closed contact (NC). Electrical control of hot water valves.

Actuators convert the electrical signal of room or clock thermostats in one valve stroke and control the set temperature. Connected directly to the valve or distributor top part by connecting cable and union nut.

IP54. Power supply 230V  $\pm$ 10%.

I max 200mA, -5/+60°C.

Stroke > 3mm in 3-6 minutes. F ~ 90 N.

TSA02NC-230 V

Actuator NC, 230V

EAN 4010312314425

24,60 €/pc.

## TSA02NC-24V

### Thermal actuator AFRISO-24V/2W, normally closed contact (NC). Electrical control of hot water valves.

Actuators convert the electrical signal of room or clock thermostats in a valve stroke and control the set temperature. Connected directly to the valve or distributor top part by connecting cable and union nut.

IP54. Power supply 24V  $\pm$ 10%.

I max 230mA, -5/+60°C.

Stroke > 3mm in 3-6 minutes. F ~ 90 N.

TSA02NC-24 V

Actuator NC, 24V
