FMH8-

Wireless mini hand-held transmitter

Wireless 8-way mini hand-held transmitter 45x85 mm, 18 mm high. Weighs only 60 grams. Generates the power for wireless telegrams itself when the button is pressed, therefore there is no battery. Smart Home sensor.

The batteryless mini hand-held transmitter FMH8 contains the same wireless module as the wireless pushbuttons FT4 and has 8 pushbuttons. It can transmit 8 evaluable wireless telegrams. The housing is laser-engraved with the numerals 1 to 8.

The wireless modules integrated in the mini hand-held wireless transmitter can be taught-in encrypted as described in the operating instructions in all encryptable actuators of the Series 61 and Series 71 as well as the FAM14. This requires the FTVW wireless pushbutton encryption rocker on page 8-5. Encryptable actuators bear the pictogram .
