

MTR61-230V

Motor isolating relay, 1+1 NO contacts not potential free 10A/250V AC, for one 230V AC motor. Standby loss 0.4 watt only.

For installation. 45 mm long, 55 mm wide, **32 mm deep.**

State-of-the-art hybrid technology combines advantages of nonwearing electronic control with high capacity of special relays.

This actuator implements the instructions of the EGS61Z and switches a 230V motor for a shading element or a roller shutter at 1-2. Therefore connect the motor connections K2-K3 of the EGS61Z with the K2-K3 connections of one or several MTR61.

230V control voltage, supply voltage and switching voltage.

Technical data page 16-10.
