

WNT12-24V DC-48W/2A (min 🙂

Rated capacity 48W. Standby loss 0.4 watt only.

Modular devices for DIN 60715 TH35 rail mounting.

4 modules = $72 \,\text{mm}$ wide, $58 \,\text{mm}$ deep.

88-264 V AC

At a load of more than 50% of the rated capacity and always if there are adjacent switching power supply units from 12W rated capacity and if there are dimmers a ventilation clearance of 1/2 module must be maintained with the spacers DS12 on both sides.

Wide-range input voltage 88-264 V AC (110V -20% up to 240V +10%).

Efficiency 87%. Stabilised output voltage ±1%, low residual ripple. Short-circuit proof.

Overload protection and over-temperature switch-off by means of switching off with automatic switching-on after fault clearance (autorecovery function).

Technical data page 17-7.
