## Switching Power Supply Units SNT12-230V/12V DC-2A

## SNT12-230 V / 12 V DC-2 A and SNT12-230 V / 24 V DC-1 A

## Rated capacity 24W. Standby loss 0.2 watt only.

Modular devices for DIN 60715 TH35 rail mounting. 2 modules =  $36 \,\mathrm{mm}$  wide,  $58 \,\mathrm{mm}$  deep. At a load of more than 50% of the rated capacity and always if there are adjacent switching power supply units from  $12 \,\mathrm{W}$  rated capacity and if there are dimmers a ventilation clearance of  $1/2 \,\mathrm{module}$  must be maintained with the spacers DS12 on both sides.

Input voltage 230V (-20% up to +10%).

Efficiency 12 V DC 83%, 24 V DC 87%.

Stabilised output voltage  $\pm 1\%$ , low residual ripple.

Short-circuit proof.

Overload protection and over-temperature switch-off by means of swichting off with automatic switching-on after fault clearance (autorecovery function).

Technical data page 17-7.
